

# Operator Guides

Operator guides demonstrate how to run Full nodes on Sui, whether as a validator or operator of a Full node to support your dApp, as well as how to integrate SUI into an exchange.

Guides that inform Full node operators include:

Guides that inform validators how to operate on Sui include:

Guides that benefit both Full node operators and validators include:

The [Sui Exchange Integration Guide](#) provides step-by-step instructions on how to integrate SUI into a cryptocurrency exchange.

Guides that inform validators how to operate Sui Bridge include:

## Sui Full node operators
